

A Twenty Year Record  
of Low Cost Knife Fin-  
ishing made by

# DIVINE POLISHING EQUIPMENT

*Write for full particulars of  
Divine Polishing Service.*

Mack & Company, a progressive concern of Rochester, N. Y. has used Divine Polishing Equipment for twenty years in finishing various types of woodworkers' cutting tools. "Long lasting, very economical, thoroughly efficient" is the verdict on Divine Polishing Equipment here.

Illustrated is a Divine Polishing Wheel finishing Wagon-makers' draw-knives, one of which is shown in the foreground. The Divine Compress Polishing Wheel is 16" diameter by 5" face. Production averages better than one per minute.

Divine Polishing Service is thoroughly comprehensive in scope, covering every finishing need. It is designed to speed production, bring down costs, increase the quality of the product.
